

1 **TYPE EXAMINATION CERTIFICATE**

2 **Equipment Intended for use in Potentially Explosive Atmospheres
Directive 94/9/EC**

3 Type Examination Certificate Number: **Baseefa04ATEX0040X**

4 Equipment: **A Range of Single Ended Beam Load Cells Type ACB**

5 Manufacturer: **Revere Transducers Europe BV**

6 Address: **Ramshoorn 7, Breda, NL-4824AG, The Netherlands.**

7 This equipment and any acceptable variation thereto is specified in the schedule to this certificate and the documents therein referred to.

8 Baseefa (2001) Ltd. certifies that this equipment has been found to comply with the Essential Health and Safety Requirements relating to the design and construction of equipment of Category 3 intended for use in potentially explosive atmospheres given in Annex II to European Union Directive 94/9/EC of 23 March 1994.

The examination and test results are recorded in confidential Report No. **03(C)0942**

9 Compliance with the Essential Health and Safety Requirements has been assured by compliance with:

EN 50021: 1999

except in respect of those requirements listed at item 18 of the Schedule.

10 If the sign "X" is placed after the certificate number, it indicates that the equipment is subject to special conditions for safe use specified in the schedule to this certificate.

11 This TYPE EXAMINATION CERTIFICATE relates only to the design of the specified equipment and not to specific items of equipment subsequently manufactured.

12 The marking of the equipment shall include the following :

⊕ II 3G EEx nA II T6 (-20°C ≤ T_a ≤ +40°C)

This certificate may only be reproduced in its entirety, without any change, schedule included.

Baseefa (2001) Ltd. Customer Reference No. **5208**

Project File No. **03/0942**

This certificate is granted subject to the general terms and conditions of Baseefa (2001) Ltd. It does not necessarily indicate that the equipment may be used in particular industries or circumstances.

Schedule

14

Certificate Number Baseefa04ATEX0040X

15 Description of Equipment

The Range of Single Ended Beam Load Cells Type ACB is designed to support a range of loads from 250Kg to 5000Kg and to provide an electrical output proportional to the applied load.

The load cells comprise a stainless steel beam, which incorporates a number of bonded strain gauge elements interconnected in a bridge arrangement along with encapsulated compensation and calibration components, mounted behind a welded cover. The load cells are supplied with a 50m max. integral cable for connection to a supply and measurement system.

$$U_i = 25V$$

16 Report Number

03(C)0942

17 Special Conditions for Safe Use

1. Provision must be provided externally to ensure that the rated voltage is not exceeded in service.
2. The integral cable shall be terminated either in a safe area or in a suitably certified enclosure which provides protection suitable for the area of installation.

18 Essential Health and Safety Requirements

All relevant Essential Health and Safety Requirements are covered by the standards listed at item 9.

1 SUPPLEMENTARY TYPE EXAMINATION CERTIFICATE

**2 Equipment Intended for use in Potentially Explosive Atmospheres
Directive 94/9/EC**

3 Supplementary Type Examination Certificate Number: Baseefa04ATEX0040X/1

4 Equipment: A Range of Single Ended Beam Load Cells Type ACB

**5 Manufacturer: Vishay Israel Transducers
(Formerly held by Revere Transducers Europe BV, Ramshoorn 7,
Breda, NL-4824AG, The Netherlands.)**

**6 Address: 8A Hazoran Street, PO Box 8381, New Industrial Zone, Netanya 42506,
Israel.**

7 This supplementary certificate extends Type Examination Certificate No. Baseefa04ATEX0040X to apply to equipment designed and constructed in accordance with the specification set out in the Schedule of the said certificate but having any variations specified in the Schedule attached to this certificate and the documents therein referred to.

This supplementary certificate shall be held with the original certificate.

This certificate may only be reproduced in its entirety, without any change, schedule included.

Baseefa Customer Reference No. 6399

Project File No. 09/0445

This certificate is granted subject to the general terms and conditions of Baseefa. It does not necessarily indicate that the equipment may be used in particular industries or circumstances.

Schedule

14

Certificate Number Baseefa04ATEX0040X/1

15

Description of the variation to the Equipment

Variation 1.1

To confirm that the Range of Single Ended Beam Load Cells Type ACB comply with the requirements of EN60079-0:2006 and EN60079-15:2005, and to confirm that the Load Cells may be marked with the certification code:-

Ⓢ II 3G Ex nA II T6 Gc (-20°C ≤ T_a ≤ +40°C)

16

Report Number

None

17

Special Conditions for Safe Use

None additional to those listed previously

18

Essential Health and Safety Requirements

Compliance with the Essential Health and Safety Requirements is not affected by this variation.
